➤ About Us;

With its industrial history starting in 1980s, "Rulopak" produced the first Hygienic Toilet Seat of Turkey in 2003 with 100% Turkish Capital and entered the industrial hygiene industry boldly and accelerated the industry with its developing corporate structure and growing production capacity.

Today, Rulopak has 3 production facilities equipped with state-of-the-art machines and devices in Istanbul with total 36,000 m2 indoors area and continues to be a dynamic, strong and entrepreneur company with its on-going investment projects.

Rulopak presents value added services to our country with scientific researches thanks to its unique structure having R&D and P&D departments along with technology engineers and continues to strive to be a world brand by exporting its products over 95 countries.

Rulopak brought many innovations from the fields of mass use to personal hygiene products with high quality products and is the first and only company focusing on hygiene products of Turkey.

Rulopak will continue to be "always one step ahead on hygiene" with its flexible and fast services, deliveries at short notice, wide distribution web and approved quality.

SCENTING SOLUTIONS

Nanoplus

Professional Wide Area Scent Diffuser

201700

Utilizing advanced technology, Rulopak scenting systems employ special vaporization techniques to disperse fragrance. Horizontal movement of nano-particles ensures even distribution, resulting in a longer-lasting and consistent scent experience throughout the area.

1500m³ Scentsing Capacity with Powerful Effect
Experience a captivating atmosphere as our system covers spaces of up to 1580 cubic meters. The robust diffusion ensures a rich and lasting fragrance, infusing every corner with an alluring ambience.

Exceptional Fragrance Dispersion
With its potent diffusion mechanism, our high-quality fragrance envelops all environments with a perfect scentsing effect, leaving an indelible impression.

Diverse LED Light Options
Enhance any setting with our adaptable LED light options that harmonize with the ambience, adding an extra dimension to the sensory experience.

Nano Odor Fusion Technology
Harnessing the power of Nano Odor Fusion Technology, our system generates odor particles smaller than 0.01 microns. These particles disperse uniformly, lingering in the air for a sustained olfactory delight.

Weekday Program Control
Take charge of your fragrance experience by programming the device to operate on specific days or deactivate during select hours. Precision timing, courtesy of advanced technology, ensures optimal performance when it matters most.

Effortless Interface
Easily tailor your settings with our simplified interface, offering seamless and intuitive programming to meet your preferences.

Innovative Top Design
A perfect blend of innovation and aesthetics, our system's top design complements any space, adding an element of elegance to its exceptional performance.

Advanced RFID System
Features Electronic Secure Chip Scentsing Captive System for heightened security.

This device is equipped with features that allow users to control it remotely. You can easily manage the functions of the device through an application. With the remote access feature, you can control the device from anywhere at any time, making your usage more convenient.

PAPER TOWEL DISPENSERS

Elite

Touchless Paper Towel Dispenser

301230

Proximity Radar Sensor: The dispenser is equipped with a proximity radar sensor that enables easy usage. This sensor is capable of detecting motion without being affected by factors like ambient lights, sunlight, and reflections. This ensures consistent and reliable motion detection for dispensing paper towels.

Touch Panel: The dispenser features a touch panel interface that is not only user-friendly but also water-resistant. This touch panel allows users to adjust paper length settings, choose different modes, and control paper feedings.

New Motor System with Ultra-Silent Function: The dispenser boasts a new motor system that includes an ultra-silent function. This not only provides quiet operation but also reduces energy consumption by 50%, making the dispenser more energy-efficient.

Tour Counter Integration: The dispenser comes with a built-in tour counter. Even when the battery energy is low, this counter ensures that the adjusted paper size remains consistent. This feature is useful for maintaining the desired paper length regardless of battery status.

Elite Series Design: The dispenser belongs to an "Elite series," which is designed based on the Golden Ratio. This design philosophy aims to create an elegant and harmonious appearance, enhancing the aesthetics of the environment where the dispenser is installed.

Turkey 7 YEARS WARRANTY RADAR SENSOR ABS QUALITY MATERIAL BATTERY OR ELECTRICITY 305 X 225 X 385 mm 3,10

- Adjustable sheet size: 15cm to 40cm ●

Feminine Sanitary Disposal Bin 20 Lt 603500

- **Specialized Design:** This pedal bin is purpose-built for the hygienic disposal of sanitary napkins, making it a convenient addition to restrooms, especially in public or shared spaces.
- **Hidden Lid:** The hidden lid is a valuable feature for maintaining privacy and discretion. When the lid is opened, the disposed items inside the bin are concealed from view. This adds an extra layer of privacy and cleanliness, which is important for sanitary napkin disposal.
- **20-Liter Capacity:** With a 20-liter capacity, this bin is designed to hold a significant number of sanitary napkins before it needs to be emptied. This is especially practical in busy environments where frequent disposal is necessary.
- **Pedal Mechanism:** The pedal mechanism allows for hands-free operation, which is essential for maintaining hygiene and preventing cross-contamination. Users can simply step on the pedal to open the bin, dispose of their sanitary napkin, and release the pedal to close it without touching the bin with their hands.

Multipurpose Cleaning Cloth

800150

- It is formed by combining polyester and cellulose with high-pressure water.
- No sharp areas are formed on the cloth surface because it is combined with high-pressure water; therefore, it does not create scratches on the wiped surface.
- Highly absorbent material can take in up to eight times its weight in water, oil, or solvents, allowing for fast drying of surfaces.
- Soft, low-linting wipes contain no additives, silicones, or binders that can contaminate surfaces; they do not leave particles or residue, making them ideal for polishing and finishing.
- Can be used with isopropyl alcohol and other solvents or cleaning agents.
- Suitable for use in food, automotive, hospital, maintenance, hotel, and furniture industries, as well as areas that require delicate cleaning.
- Specifications: 30x28 cm (100 sheets)
